BEHIND THE MAGIC OF URBAN ALCHEMY: Stories of Urban Restoration in Action

**A Presentation by Mindy Fullilove
and Michel Cantal-Dupart**

With Contributors Dan Rothschild, Molly Rose Kaufman,
Terri Baltimore, and Ken Doyno

In her new book, *Urban Alchemy*, Dr. Mindy Fullilove presents a psychiatrist's views on how to fix the American city. She identifies nine elements of urban restoration that are critical tools for repairing our cities and restoring the nation's neighborhoods to health. The nine elements are illustrated by stories of connecting communities, "re-discovering" home, celebrating differences, strengthening solidarity, and creating more livable and meaningful places—shared by the people who are on the ground and make it happen every day.
